

MAHLE

Driven by performance

TRANSMISSION OIL SERVICE – CONVENIENT, FAST, AND PRECISE

FLUIDPRO ATX 180

Transmission oil service unit
with MAHLE E³ technology
Ecological x Economical x Efficient

Transmission oil service unit with MAHLE E³ technology

MAHLE E³ formula: Ecological x Economical x Efficient

Your benefits

E³ DATABASE: A user-friendly database provides quick access to extensive information on the relevant vehicle specifications, including transmission oil quantity, service point, adapter type, and AT filter.

E³ ZERO CROSS: A fast programme facilitates safe, convenient oil grade changes with the highest purity.

E³ COMPLETE: Automatic service for easy, intuitive operation—and fast, complete results.

MAHLE E³ technology

2x 10 L/min PWM pump for fast service

Oil grade purity

Intuitive operation and guided service

Automatic detection and adjustment to flow direction

Innovative weight scale technology for maximum precision

USB interface for maintenance, updates, and remote diagnosis

Colour display and alphanumeric keypad

Printer for customer reports

Integrated database for service data

Dipstick mode

Technical data	
Integrated database	Vehicle and transmission data, service data such as oil quantity, oil grade, technical data, and connection points
Control	Software controlled with colour display and keypad
Dimensions (H x W x D)	106 cm x 70 cm x 62 cm
Fluid reservoirs/types	25.0 litres each for fresh and used oil; 0.5 litre additive reservoir with dedicated scale
Hoses	2 x 3 m (for fluid exchange), 1 x 2.5 m (for used oil drainage)
Fresh oil pump	2 x hydraulic pumps, 10 L/min each; PWM (pulse-width modulated)
Power supply	100 V–240 V
Process time	5 to 10 minutes for an average complete change
Scale accuracy	±0.03% over usable range
Quick service	Quick and easy automatic transmission oil change with no additional flushing
Drain pan (top grid)	Collected residual oil quantities are weighed
Menu languages	DE, EN, FR, ES, PL, IT, RU, NL
Weight	Net: 88 kg, gross: 95 kg
