

ZONE 2

COB LED rechargeable headlamp

The new ZONE 2 headlamp provides optimum work light illuminating the entire field of view. It is now delivering even more value for money for the professional user.

The light output was increased by 33 % from 150 to 200 lumen, and with improved battery technology and now three light settings, including the new »reading mode«, the maximum operating time was increased to 22 hours.

The design has become more compact, modern and user-friendly, and the new ZONE 2 also features a battery indicator and upgraded IP rating to IP54.

- Lights up your entire field of view
- New reading mode setting
- 22 hours operating time
- Improved battery technology
- Compact and user-friendly design
